## GULF COUNTY RESTORE ACT PROJECT PRE-PROPOSAL FORM

**Project Name:** HONEYVILLE PARK COMPLEX

**Submitting Entity:** GULF COUNTY BOCC

**I. Please select one or more eligible activity that the project is classified under:**

- Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region.
- Mitigation of damage to fish, wildlife and natural resources.
- Implementation of a federally approved marine, coastal or comprehensive conservation management plan, including fisheries monitoring.
- Workforce development and job creation.
- Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.
- Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.
- Coastal flood protection and related infrastructure.
- Planning assistance.
- Promotion of tourism and seafood in the Gulf Coast region.

**II. Please provide an executive summary of the project. Describe/quantify the economic (jobs, infrastructure, tourism, etc.) and environmental benefits (habitat, quality, knowledge, long-term sustainability, etc.).**

The Honeyville Park Complex Project consists of the completion of the Honeyville Park to accommodate the World Series Class competition. To complement the existing 3 fields, there is a need for 2 additional fields along with necessary amenities. Necessary space for fields, concessions and restrooms is available. This would be a draw for Tourism with marketing and with proper maintenance, will survive decades.

**III. Please provide a cost summary/budget. Detail any matching/cooperative funds available for use, and any cooperative support from governmental or other agencies.**

GULFGRANTS MAR/4/13 PG0101

The estimated cost for this project completion is \$200,000.00. Gulf County has already invested much more than this amount to get to the current stage. The land was donated by the St. Joe Company and minimal leveraged amounts can be anticipated through the County TDC and BOCC.

**IV. Please provide a timeline for project completion. Explain the technical and environmental feasibility (including any permitting considerations) of the project.**

Upon receipt of notice of funding, necessary design work and permitting can occur within 60 days. Construction phase of the project can occur within 90 days for a total of 5 months. Permitting is not an issue on this property.

**V. Please provide the qualifications of the Submitting Entity, the financial feasibility/sustainability and the economic feasibility and sustainability of the project (probability of success, etc.).**

The GCB OCC will be the submitting agency for this project. Gulf County has constructed several park projects over the past years and has a good track record. The park improvements will be maintained as are all county parks and with marketing, the probability of success is great.

**VI. Please provide the anticipated results of the project, and whether it is included in a City of Port St. Joe, City of Wewahitchka or Gulf County Comprehensive and Mitigation Plan?**

This will be the final phase of the this project. The Community Park/Community Center and Ball Park Complex should have good community appeal as well as tourism draw. This final phase is recognized in the tentative CIP of Gulf County.
