- MBIA Corp.'s liquidity position in our view, improved, lessening the likelihood of the company falling under regulatory control during the next 12 months.
- National's capital adequacy position and financial risk profile have also strengthened, in our view.
- We are raising our ratings on MBIA Corp. and National and placing National and MBIA Inc. on CreditWatch Positive.
- The stable outlook on MBIA Corp. reflects our view that the company's capital and liquidity is adequate to meet claim payments for the next 12 months.

NEW YORK (Standard & Poor's) May 8, 2013--Standard & Poor's Ratings Services said today that it raised its financial strength rating on MBIA Insurance Corp. (MBIA Corp.) to 'B' from 'CCC'. The outlook is stable. At the same time, we raised our financial strength rating on National Public Finance Guarantee Corp. (National) to 'BBB' from 'BB' and the stand-alone credit profile to 'a' from 'bb'. We placed our rating on National on CreditWatch Positive. We also placed our 'B-' long-term counterparty credit rating on MBIA Inc. on CreditWatch Positive.

"Our rating action on MBIA Corp. reflects our view that potential stress on the company's liquidity position has lessened as a result of the announced settlement with Bank of America (BofA), and that the company is unlikely to come under regulatory control during the next 12 months," said Standard & Poor's credit analyst David Veno. The settlement included the commutation of all of the MBIA Corp. policies with BofA insuring a notional amount of approximately \$6.1 billion of credit default swaps referencing commercial mortgage-backed securities transactions that experienced significant deterioration in recent months and a \$500 million three-year secured revolving credit agreement with BofA. The rating also reflects our view of the company's small capital base relative to the risk of its insured portfolio; poor operating performance, which we expect to continue; and lack of competitive advantage to improve its financial position in the next 12 months. The rating reflects the company's run-off status and our belief that this corporate profile is unlikely to change in the near term.

Our rating action on National reflects our view of the company's strengthened capital adequacy position and financial risk profile following MBIA Corp.'s repayment of the intercompany loan. As part of the settlement, BofA paid approximately \$1.7 billion, consisting of approximately \$1.6 billion in cash and \$137 million principal amount of MBIA Inc.'s 5.70% senior notes due 2034, both of which will be used to repay the intercompany loan of approximately \$1.6 billion. The rating on National reflects our view that MBIA Corp. continues to act as an anchor on the National rating, pending final resolution of litigation challenging National's split from MBIA. National's stand-alone credit profile of 'a' reflects the company's stable and strong earnings and low potential for stressed losses given the risk profile of the insured portfolio. Minimal volatility of the insured portfolio reflects a history of strong underwriting. Prospectively, National compares favorably with competitors as a result of distribution channels, customer relationships, and management's underwriting expertise. Offsetting factors include the company's current inactive state. While the company does not write new business, its liquidity will be weakened by low cash-flow generation that depends predominantly on investment income.

- After the termination of the transformation litigation brought by 18 banks in 2009, we no longer anchor our rating on National Public Finance Guarantee Corp. (National) to our rating on MBIA Insurance Corp. (MBIA Corp.).
- We now view National as the principal source of funds for debt-servicing and holding company expense needs at MBIA Inc.
- As a result, we are raising our rating on National to 'A' from 'BBB' and removing it from CreditWatch Positive. At the same time, we are raising our rating on MBIA Inc. to 'BBB' from 'B-' and also removing it from CreditWatch Positive.
- The stable outlook on National reflects our expectation that it will gain market acceptance and become a competitive financial guarantor; the stable outlook on MBIA Inc. reflects our view that it has adequate liquidity to meet its needs.

NEW YORK (Standard & Poor's) May 10, 2013--Standard & Poor's Ratings Services said today that it has raised its financial strength rating on National Public Finance Guarantee Corp. (National) to 'A' from 'BBB' and removed it from CreditWatch, where we placed it with positive implications on May 8, 2013. At the same time, we raised the counterparty credit rating on MBIA Inc. to 'BBB' from 'B-' and removed it from CreditWatch, where we placed it with positive implications on May 8, 2013. The outlook on both companies is stable.

"The rating on National reflects our view that MBIA Corp. no longer acts as an anchor on the National rating following the settlement with Societe Generale that ends litigation challenging National's split from MBIA Corp. in 2009," said Standard & Poor's credit analyst David Veno. "It also reflects the company's stable and strong earnings and low potential for stressed losses given the risk profile of the insured portfolio. Minimal volatility in the insured portfolio reflects a history of strong underwriting. Prospectively, National compares favorably with competitors as a result of its distribution channels, customer relationships, and management's underwriting expertise. The company's current inactive state is an offsetting factor--since it's not writing new business. In addition, its liquidity is weakened by low cash-flow generation that depends predominantly on investment income."

Our rating on MBIA Inc. reflects our view that National is its principal source of debt-servicing and holding company expense needs, and follows standard holding company notching criteria. We expect MBIA Inc.'s cash and short-term investments to cover these obligations through 2014--an important factor for the rating. The continued estimated tax escrow release in January 2014 and 2015 related to the tax-sharing agreement and National's expected ability to pay dividends also support MBIA Inc.'s liquidity.

The outlook on National is stable based on our expectation that the company could begin writing business, gain market acceptance, and show favorable competitive characteristics. We expect National's operating performance to remain a rating strength as it writes new business and historic underwriting standards are maintained. We expect the company to invest proceeds from the repayment of the intercompany loan in liquid assets, improving its investment portfolio diversification. If the company does not meet our expectations, we could lower the rating, or if it exhibits sustainable competitive advantages, we could raise the rating.

Dear Ms. Lynn Lanier:

Duke Energy sincerely appreciates your business. Our goal is to contribute to the success of your business by effectively meeting your needs, and we are striving to serve you better.

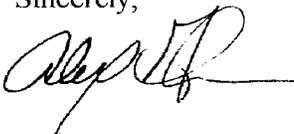

To help us accomplish this goal, I am requesting *your personal* participation in a brief customer satisfaction survey. By providing *your perspective* about the quality of service we provide, as well as providing feedback on your Duke Energy account executive, you will help us:

- Assess how well we are currently serving our customers
- Better understand how well we communicate with you
- Identify meaningful ways to improve our service

TNS, a leading research company, will conduct this survey. A TNS representative may phone you within the next few weeks to conduct your interview, which will take approximately 15 minutes. If you receive this call at an inconvenient time, TNS will be happy to reschedule.

Your opinion counts, and I thank you in advance for your participation in this survey.

Sincerely,

Alex Glenn

Dear Ms. Hand:

It is hard to believe that we are already planning for our 2014 budgets. The 2013 Legislative Session is over and FAC is in full swing as we plan for our upcoming Annual Conference. However, not even the legislative session dampened our spirits after defeating Amendment 4 in November. FAC worked with our partners at the Florida League of Cities on a grassroots campaign that resulted in the defeat of Amendment 4 which would have cost local taxpayers more than \$1 billion over four years.

Last year also brought a strong Medicaid fight - FAC worked throughout the summer - traveling with the Agency for Healthcare Administration (AHCA) to 67 counties to resolve outlandish backlog numbers and made sure counties were heard while the new billing system was put into place. FAC continued to advocate on behalf of counties this session as we tried to protect county resources as the state made dramatic changes to Medicaid.

In addition to our advocacy efforts, FAC is able to bring savings to our members through our Enterprise programs. FAC members (and their citizens) have achieved substantial budget savings through participation in FAC endorsed insurance programs, financial products and other affinity programs. In 2012 alone, members saved in excess of \$4M through the FAC endorsed US Communities Program. This cooperative purchasing alliance provides an average savings of 10-25% for participants. Members in the FAC endorsed NACo Prescription Discount Card program yielded over \$5.7M in savings for county residents and this number is on the rise in 2013.

FAC is committed to saving your county revenue through our Enterprise Programs and fighting unfunded mandates in Tallahassee.

Since 2007, the FAC Board of Directors has passed a special exemption to freeze dues every year. For 5 years FAC, like you, cut costs and used reserves to balance our budget without raising dues. This year, as our economy has begun to slowly rebound, the Executive Committee is recommending to the Board of Directors that FAC dues slightly increase as well. Therefore, they will ask the Board of Directors to vote on a 2% dues increase for next fiscal year.

We thank you for your commitment and look forward to continuing to working with your county years to come.

Sincerely,

[Handwritten signature of Christopher L. Holley]

Subject: A Thank You from Duke Energy
Attachments: NAICS 2007.pdf; Legislation Paves the Way for Manufacturing Growth.pdf; 7007ER.PDF

May 9, 2013

On May 1, the Florida Legislature passed a measure that allows manufacturers to invest more money in manufacturing machinery and equipment by eliminating the sales tax on these purchases. As your advocate and business partner, Duke Energy supported this bill. We understood how important it was to you, and we are very pleased with the outcome. Our collective voices have been heard.

For your information and additional details about the bill passage, attached is the news release that was issued by the Manufacturers Association of Florida. On behalf of Duke Energy and Nancy Loehr, Manager Large Account Management, we appreciate your partnership.

Sincerely,

Alex Glenn

WASTE MANAGEMENT

6319 Hwy 22 E
Panama City, Florida
32404

May 7, 2013

Mr. Don Butler
County Administrator
Gulf County
1000 C.G. Costin Sr Blvd
Port St Joe, FL 32456

Dear Mr. Butler:

Waste Management appreciates the opportunity to partner with the Gulf County in providing solid waste solutions for the residents of Gulf County. We believe our relationship has been beneficial and look forward to continuing to serve the needs of the County.

Please accept this letter as notice of the price increase as provided for and described in our agreement with the County.

Our agreement provides for an adjustment based on the percentage change in the Consumer Price Index (CPI) for twelve months ending October 31, 2012 applied to each pricing category. The adjustment is 2.23% based on this calculation. A copy of this index, as well as our calculations, is attached as a part of this letter.

We propose the new pricing effective June 1, 2013.

Please do not hesitate to give me a call at 850.357.1151 if you require further explanation.

Sincerely,

Lynn Yort
