Commissioner McCroan seconded the motion. Chairman Quinn called for public comment. There being no public comment, the motion passed unanimously. DATE: **JULY 16, 2026**

SUBJECT: **TDC-PF FUNDING THE REPLACEMENT OF WALKOVER IN GASKIN PARK**

Staff is requesting BOCC approval of TDC- Public Facility funding for the replacement of the walkover at Gaskin Park. The funding for this project is currently in the FY2526 Budget with 70% to be funded by TDC-Public Facilities (TDC-PF) in Fund 128 and 30% District 1 Parks in Fund 131. This project will likely take place in FY2627 and the carry-over funding will be included in the new budget.

The TDC's recommendation, which included Parks and Recreation Facility Enhancements, was approved by the BOCC 5/5/26.

The proposed project meets the Parks and Recreation Facility Enhancements category included in the Gulf County Infrastructure Investment: Tourism Impact Analysis dated 4/15/26. This analysis was prepared by Impact DataSource and meets the requirements for Florida Statutes 125.0104(5)(a)6e. This report has been reviewed and approved by the TDC, BOCC and County Attorney.

Staff have also confirmed that the following requirements have been met:

- Gulf County is a fiscally constrained county.
- At least 40% of all tourist development tax revenues collected in the county are spent to promote and advertise tourism as required.
- Funds will only be used for an allowable public facility capital investment that has a life expectancy of 5 or more years.

Re: Public Safety Cost Reimbursement Request

Gulf County is a fiscally constrained county that experiences higher volumes of tourists and visitors to the area during specific times throughout the year. Thusly, Emergency Medical Services (EMS) has added additional coverage in service due to the increase in population in the area during these times. Adding additional coverage to service is necessary due to the length of transport times, as well as the quantity of emergency calls received in the County's tourist corridors.

EMS is seeking reimbursement for these additional costs due to public safety concerns. The costs associated in this reimbursement request are not supplanting normal operations; they are additional services that were added due to the increased number of tourists and visitors to the area.

The reimbursement request is for services rendered by EMS from March 22, 2026, through June 5, 2026. The request includes reimbursement for EMS payroll. The total cost is $12,093.46

Please reach out if you have any questions.

SUBJECT: Purchase of Tanker Fire Truck for Overstreet VFD

By this memorandum, I would like to recommend that the board allow the Fire Coordinator to purchase a Tanker Fire Truck for the Overstreet Volunteer Fire Department (OVFD) from Ten-8 Fire & Safety on State Contract (# FSA25-VEF19.0).

Per the county procurement policy, we have received at least three quotes from vendors, with base truck price listed below:

$567,000.00 – NAFECO, Inc.
$544,145.80 – Ten-8 Fire & Safety
$528,126.00 – Toyne, Inc.

Since the quote from Ten-8 Fire & Safety is not the lowest, We are requesting approval for this purchase with the following allowable exceptions under section 4 of our procurement policy: An exceptional purchase due to compatibility with existing fleet, prior experience with vendor, and critical delivery schedule for this grant.

We are requesting approval to purchase the apparatus and additional equipment at an amount not to exceed $600,000.00. OVFD has received a State appropriation for the amount of $600,000.00 for the tanker and equipment and this purchase will be contingent upon grant funding.
